

Excellence in

HYGIENE & ENVIRONMENT CONTROLS

ENCORE
COOLING SYSTEMS

AUTHORISED SALES & SERVICE DEALERS OF

DAIKIN

www.encorecoolingsys.com

About **Us**

Established in 2019, with providing services in HVAC maintenance and commercial installations for various Air Conditioning Projects with profiles for Corporate as well as Pvt. Ltd. Companies.

We are associated with Reputed Companies for their related products for HVAC & R Industry (Cooling as well as Heating). Having a strong customer base from Central Gujarat till South Gujarat bordering Maharashtra, Eastern India & M.P. which includes Pharmaceuticals HVAC projects, VRV Cooling System Design to Execution, Commercial Project Design to Execution and Various Maintenence & Revamping project along with Chilled Water Systems & Cooling Water Systems design to Execution required for any type of industrial or commercial cooling Application & Process.

Moreover we work for complete client satisfaction putting in all the necessary efforts & understanding. Our focus is to serve our customers with new and upcoming technologies such as Energy Saving Concepts, System Optimization for adverse operating conditions.

Our **Mission**

To become an economic & proven solution provider for contamination. Clean & Hygienic Environment.

Our **Vision**

Maintain customer satisfaction in all respects with expert workmanship, quality & timely service requirements with swift delivery schedule.

What **We Offer**

MODULAR CLEAN ROOM PROJECTS

- Low Design Cost Concept
- Consistent Quality
- Easy Modifications
- Flexible Configurations
- Filtration from ISO 4 to ISO 8
- Predictable Performance
- All Regulatory Compliance

HVAC PROJECTS

- Conceptualization
- Design Area Classification
- HVAC - VRV System (DAIKIN)
- Pressure Zoning / Balancing
- System Grouping
- Basic & Detailed Engineering
- Preparations of BOQ
- Execution & Site Management
- Commissioning & Validation
- Documentations as per USFDA, TGA & WHO cGMP

CLEANROOM EQUIPMENTS & ACCESSORIES

- Dynamic / Static Pass Box
- Dispensing / Sampling Booth / Central Air-Conditioning
- Laminar Airflow Unit
- Reverse Laminar Airflow Unit
- Air Shower
- Bio-Safety Cabinet

CLEANROOM SERVICES

- Revamp / Upgrade of Existing Plant Facilities
- HVAC / Cleanroom Project
- Implementation
- Turnkey Solutions under One Roof

MODULAR OT & HOSPITAL

- Operation Room Panelling
- Hermetically Sealed Metal Doors
- Operation Theatre Room Accessories

Segments **We Cater**

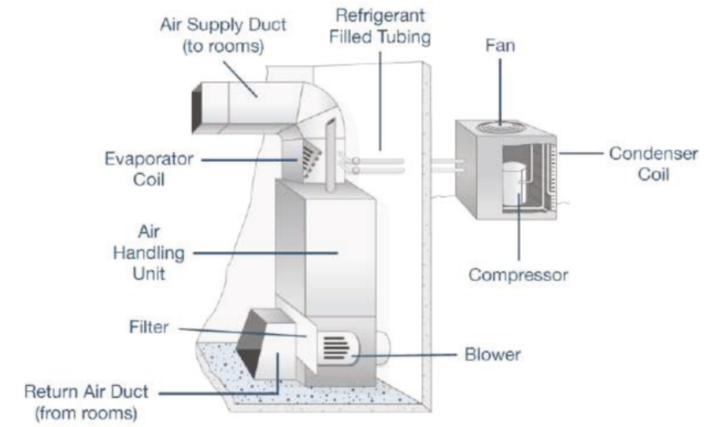

Pharmaceutical | Engineering Industries | Plastic Industries (Masterbatches) | Food Processing Bio Technology | Manufacturing Companies | Life Sciences | Laboratory & Research | Industrial Labs Nano-Tech | Electronics | i-Robotics | Medical Devices | Cold Storage | Transformer & Cable Industries | Hospitals

Heating Ventilation & Air Conditioning Systems **(HVAC)**

HVAC is the system which is used to providing heat ventilation & air - conditioning for controlled environment. HVAC System plays a vital role in contamination control for cleanroom concept. The major component used in cleanroom air distribution are; Air Handling Units, Filter Modules, Risers, Grills, Volume Control Dampers, Fire Dampers, Ducting, Insulation & Condensing Units. For designing & manufacturing of Clean Air Distribution concepts we follow the latest guidelines and standards of regulatory authorities.

HVAC Components

DRAWING | DUCTING | AHU | INSULATION | HEPA MODULES | RETURN RISERS | GRILLS & LOUVERS | VOLUME CONTROL DAMPERS | AIR FILTERS HVAC CONTROLS | VRF (VRV / DAIKIN) | DX SYSTEMS |CHILLED WATER SYSTEMS

Salient Features

- The anodized thermal break aluminum sections are corrosion free in multiple environments
- Cooling and Heating coils made up of Copper, Aluminium & SS with SS finning for long run
- Available in 50mm thermal break and 25mm thick non-thermal break panel construction

www.encorecoolingsys.com

Range of Air Handling Units **(AHU) Offered**

FLOOR MOUNTED AIR HANDLING UNITS | CEILING SUSPENDED AIR HANDLING UNITS DOUBLE SKIN AIR HANDLING UNITS | DEAHU | SINGLE SKIN AIR HANDLING UNITS RECIRCULATION AIR HANDLING UNITS | VENTILATION UNITS | SCRUBBERS | HEAT RECOVERY VENTILATOR (HRV) AIR HANDLING UNITS | AIRWASHERS

Encore Modular Clean Room Panels

- Good stability due to advanced architectural design
- Custom designed solutions from a single room to complete departments
- Full Modularity
- Practically Zero Maintenance
- Flush Surfaces for easy cleaning and complying with cGMP requirements
- Easy to Assemble and Dismantle with Relocation Compatibility

Products

- Wall Panels
- Ceiling Panels
- Doors
- View Glasses
- Return Risers
- Snap Fit Coving

Material of Construction

- Powder Coated / Pre-Painted
- Stainless Steel
- High pressure Laminates

Types of Clean Room Panels (System-Construction)

- Progressive Panel
- Semi Progressive Panel
- Non Progressive Panel

Clean Room **Doors**

ENCORE made clean room doors have been specifically designed for the areas where hygiene & control of air leakage is critical. The doors designed & offered by us are extremely durable & are hermitically sealed for proper air tightness and leakage resistance. The door has a unique surrounding frame with a neoprene rubber seal design, which enables the door to shut tight perfectly.

Types of Doors **We Offer**

- GI Powder Coated Metal Doors
- Stainless Steel (SS) Doors
- High Pressure Laminated Doors
- Fire Proof Doors
- CRCA Powder Coated Metal Doors
- Aluminium Powder Coated Metal Doors

Salient Features

Highly Durable & Smooth Functioning

Attractive to Look

Easy to Clean

Hermitically Sealed

Assured Safety

Provision for Locking & Latching

Modular Double Glazed View Panels
Salient Features

- Flush Mounted to the Civil Walls
- Moisture Absorption Feature
- Cleanroom Compatible
- Available in Toughened & Float Glass as per application
- Easy to Clean Civil Wall Windows & Modular Double Glazed View Panels

Cleanroom Equipments

- Pass Boxes (Pass Through)
- Laminar Flow Units (LAFU)
- Biological Safety Cabinets
- Sampling & Dispensing Units
- Air Showers
- De-dusting Booth

Our Range of Pass Boxes

Static Pass Boxes • Dynamic Pass Boxes • Material Transfer Hatch

Salient Features

- Robust in Construction
- UV Protection for Sterility Coving inside the baby for easy cleaning
- Electromagnetic Inter Locks are **'CE'** approved and have long life
- Available in Standard & Custom Made Pass Boxes
- Good Finish
- Food Grade Neoprene Gasket arrangement for Air Tightness
- Stainless Steel (SS) SS304 / SS316
- Galvanized Iron (GI) Powder Coated

Air **Showers**

ENCORE Cleanroom Air Shower Systems play a vital role in removing surface particles from personnel and material prior to entering and exiting from a controlled environment area. These showers are installed before the entrance to cleanrooms and other controlled environments perfectly suitable for semi-conductors, pharmaceuticals, spray painting, micro-electronics, paint shop & packaging etc.

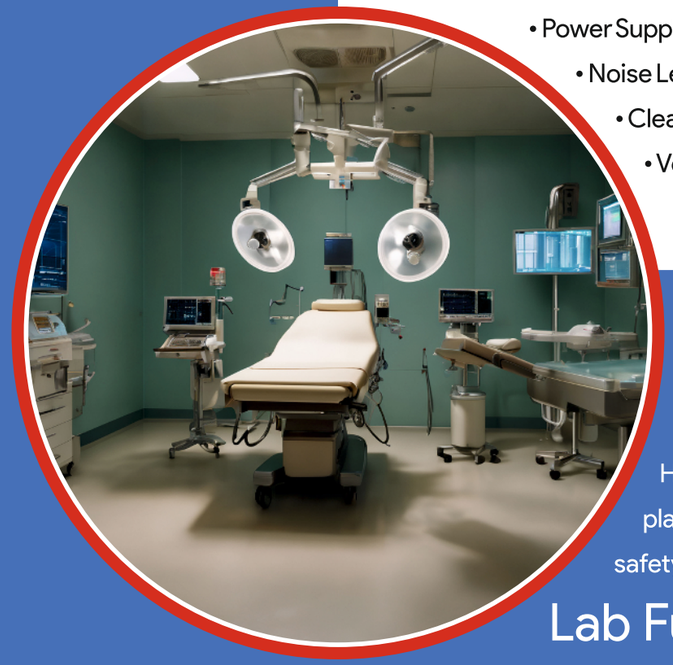

Salient Features

- Completely Self-Contained, adjustable nozzles to remove surface contaminants
- Dual Hepa Filters remove 99.99% of particles > 0.3 Microns from the Air Stream
- Equipped with Interlocking doors, automatically released when power fails
- Emergency stop buttons on both doors immediately disengages interlocks and halt air shower
- Light Weight and Modular Design enables easy shipping and transfer of the unit

Sampling & Dispensing Units

- Power Supply : 220V Single Phase
- Noise Level : 60-65 Decibels
- Cleanliness Class 100 Particle Retention : 0.3 Micron Standard : FED 209E
- Velocity : 100FPM + 20% Illumination : 4ft. 40W with Diffuser

Modular **Operation Theater**

Operation Theater Room Accessories

We deal in all kinds of Operating Room Accessories

Hospital Accessories

Hospital furniture along with modern medical equipments have important role to play in health-care. They help surgeons to perform the critical surgery with utmost safety and care of patient.

Lab Furniture & **Fume Hood**

We have created & engineered around our core principles of Swiss Quality. We build modular furniture for Laboratories, modular furniture for offices, schools & pharmaceuticals company. We design each piece of furniture so as it lasts a lifetime. Our wide range of modular and adaptable furniture helps you create a modern space that is specific to your needs.
